BEGINNER

AMATEUR

CONNOISSEUR

# Foreword

ORCHIDS, like people, differ. With plants, however, the Horticulturist is able to control the variation to a degree and by the use of certain proven parents can predetermine the variations—shape or form of flower, color, and many other hereditary factors.

THE amateur grower should bear in mind the great importance of selecting orchids which represent, generically, the traits which he desires in flowers. As we have pointed out so many times before, poor orchids require the same time to produce as good ones; therefore, do select your orchids cautiously, so that you can be proud of your plants when they bloom.

THE hybrids which we offer represent the finest and are the results of the work of the leading hybridists of the world. The parents used in these hybrids were carefully selected for outstanding qualities. And we believe that the merit of the resulting flowers will bring you many hours of enjoyment.

WE have tried to give you a brief description of what may be expected as to color and season of flower; however, it is difficult to describe accurately the color variations that may be expected in a fine orchid hybrid, since they cover such a wide range.

THE beginner is often confused as to the selection of plants which are suited to his given growing conditions; if we can be of assistance in any way in making your selections, we'll gladly help.

# CATTLEYAS AND ALLIED GENERA

(UNFLOWERED)

## LAVENDER - WHITE WITH COLORED LABELLUM - WHITE - YELLOW

We offer the following crosses as unflowered seedlings. Plants in 3½" pots will flower in about a year, while those offered in 5" pots are in sheath or will make sheath on the next growth. This is an opportunity to buy outstanding hybrids in large sizes, yet have the pleasure of seeing them flower for the first time.

You will note that we have indicated some hybrids to be "light controllable." This means that by the use of additional light plants may be flowered at times different from their normal flowering season.

In some instances we may be sold out of a given size and ask that you give us a second choice or permission to substitute a cross of equal quality.

PHYLLIS S. ROSKIN CARING FOR OUR FINE STOCK OF SELECTED SEEDLINGS.

NO.	PARENTAGE AND DESCRIPTION	SIZE	PRICE
184	<b>BLC. DOROTHY JONES</b> (Blc. Nanette x C. White Empress, F.C.C.) We flowered a number of this hybrid the past season and are very pleased with the ones we have seen. A few flowers were tinted with lavender, but most have been white with colored labellums. Substance is very fine. Season fall and early winter.	3½" 5"	\$ 8.00 17.50
193	<b>BC. TRILAND</b> (C. Trianaei x Bc. Hartland) Bc. Hartland has been a fine parent and combined with C. Trianaei should produce some fine flowers for the Christmas season.	3½" 5"	7.00 17.50

NO.	PARENTAGE AND DESCRIPTION	SIZE	PRICE
-----	---------------------------	------	-------

269	<b>LC. SPRATT MANGUS</b> (Lc. Tegucigalpa x C. Trianaei)		
-----	--	--	--

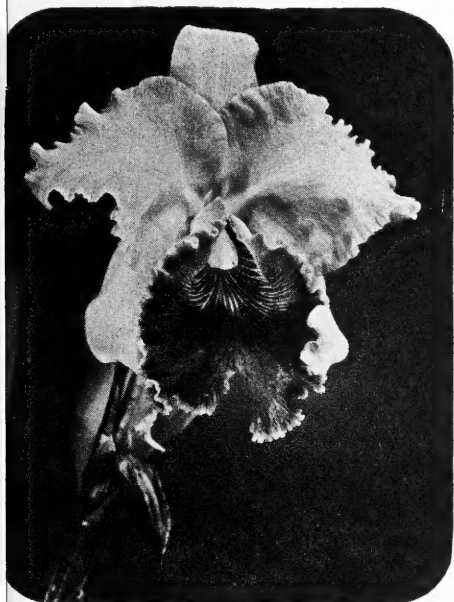

Lc. Tegucigalpa is one of the fine modern hybrids and again this cross was made for Christmas flowers. Fine grower, nicely-shaped flowers.

2 1/2"	\$ 3.00
3 1/2"	7.00
5"	17.50

280	<b>BLC. MIAMI</b> (Lc. Dr. Walter Jones x Bc. Hartland)		
-----	---	--	--

All of the seedlings of this hybrid that we have flowered have been dark and of good form. This hybrid has excellent parentage and we are confident that this will be one of the outstanding crosses. Season, winter.

2 1/2"	4.00
3 1/2"	10.00
5"	20.00

LC. DR. WALTER JONES

313	<b>C. MARGARET VICTORIA</b> (C. Raphaelaurea x C. gigas, Frau Melanie Beyrodt)		
-----	--	--	--

A fine white flower with colored labellum. Yellow eyes in the throat of the labellum add greatly to the beauty of the flower. Season, fall and early winter.

3 1/2"	8.00
5"	17.50

314	<b>BIC. COLLETT EVERMAN WOOLMAN</b> (Lc. Princess Margaret, Stonehurst x Blc. Ishbel)		
-----	---	--	--

The color has varied from light to very dark, but all flowers have been exceedingly fine. Flowers are large, have good substance, and a large dark labellum. Season, winter.

3 1/2"	8.00
5"	20.00

315	<b>LC. CLARA SCHREIVER</b> (C. Raphaelaurea x Lc. Jane Dane)		
-----	--	--	--

Similar to cross No. 313. We have flowered only a few of this hybrid, but from all indications this will be an outstanding flower. Season, fall to winter.

3 1/2"	8.00
5"	20.00

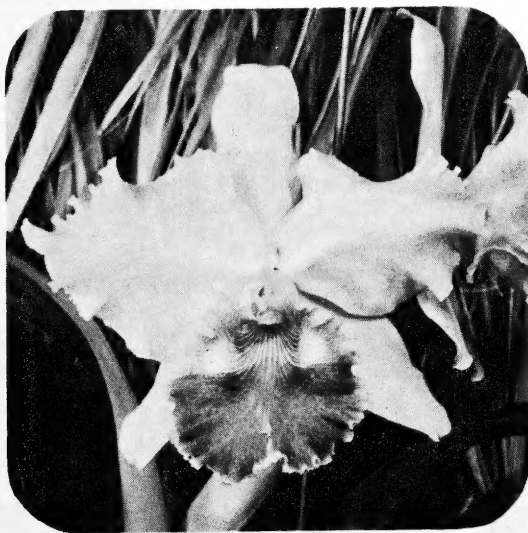

317	<b>BLC. DAWN ANGELA X C. TRIANAEI, A. C. BURRAGE</b>		
-----	--	--	--

A fine hybrid of medium-light color. The shape of this flower should be excellent and some exhibition blooms can be expected. We know of no finer variety of C. Trianaei than A. C. Burrage. Season, December-January.

2 1/2"	3.00
3 1/2"	7.00
5"	17.50

NO.	PARENTAGE AND DESCRIPTION	SIZE	PRICE
337	<b>BLC. DAWN ANGELA X C. MENDELISSIMA</b> Flowers are large, light in color and of excellent form. Label- lum dark. A fine fall-flowering hybrid.	5"	\$17.50
338	<b>BLC. WAGNETTE (Blc. Nanette x C. Mossiae, Wageneri)</b> Last fall we flowered the first plant of this hybrid and were very pleased with its outstanding qualities. It was an all white flower of excellent form. A few lavender flowers may be expected.	2 1/2" 5"	3.00 20.00
340	<b>LC. PRINCESS MARGARET, BONYCREST X LC. MIRANDA</b> We have not flowered this hybrid as yet, but from its growth habits it looks very promising. We expect it to be variable in color, perhaps even some bronze shades. Season, winter.	2 1/2" 3 1/2" 5"	3.00 8.00 17.50
345	<b>LC. KISMET QUEEN (Lc. Princess Ishtar, Hawaiian Queen x Lc. Kismet, rotunda)</b> Outstanding hybrid. Round, compact flowers of exceptionally heavy texture. Medium-dark color. Season, winter.	3 1/2"	8.00
346	<b>C. ALWYNII, JANE FROMAN X LC. HASSALLI, COWAN'S VAR., F.C.C.R.H.S.</b> Two fine parents were used in this hybrid. Plants are good growers. White sepals and petals with solid-colored labellum. Season, winter.	2 1/2" 3 1/2" 5"	3.00 8.00 17.50
370	<b>C. JOYCE HANNINGTON, PERFECTION X BLC. NANETTE</b> Few white hybrids equal the quality of C. Joyce Hannington. It has been outstanding wherever it has been flowered. Some flowers developing from this hybrid may come with a blotch of color in the labellum, or it may produce all-white flowers. We expect the C. Joyce Hannington parent to contribute some of its excellent form to the offspring. Season, Dec.-Jan.-Feb.	2 1/2" 3 1/2"	3.00 8.00
372	<b>LC. MODEL, MORADA, F.C.C. X C. REMY CHOLET, BRUGES</b> Flowers should be very dark and the plant floriferous. Ex- cellent parentage. Season, winter.	2 1/2" 3 1/2" 5"	3.00 8.00 17.50

NO.	PARENTAGE AND DESCRIPTION	SIZE	PRICE
445	(LC. CAPRICE X C. DOWIANA) X BLC. MORNING SUN		
	The flowering season will be spring or early summer. Flowers are expected to be yellow with rose-colored labellums.	2½"	\$ 5.00
466	C. SPINDRIFT (C. Ville de Liege x C. Brussels, alba)		
	A vigorous grower, producing an abundance of large flowers during the fall season. Flowers are white with colored labellums. (Light Controllable)	2"	1.75
		2½"	3.00
467	BC. MME. BRASSEUR HYE, SUPERLATIVE GOOD X LC. JOSEPH HAMPTON		
	Lc. Joseph Hampton is a fine dark flower, and we have great faith in this new hybrid. Some flowers should have flares in the petals. (Light controllable)	2"	2.00
		2½"	3.50
468	LC. JOSEPH HAMPTON X C. PEETERSI, FINE DARK		
	This superior strain of C. Peetersi will undoubtedly tend to make a fine dark hybrid with Lc. J. Hampton as the other parent. Season, fall. (Light controllable)	2½"	3.50
469	BLC. CHIEF JOSEPH X C. AMABILIS		
	This cross was made with the thought that the yellow Blc. Chief Joseph would make a very dark flower. (Light controllable)	2"	2.00
		2½"	3.50

LC. HAROLD PATTERSON  
Var. Orchidglade,  
A.M.A.O.S., 1952

NO.	PARENTAGE AND DESCRIPTION	SIZE	PRICE
473	<b>C. ANNE CLAUDE</b> ( <i>C. amabilis</i> , Fine var. x <i>C. labiata</i> , Best var.)		
	Two excellent strains that will produce fine dark flowers. We believe that the <i>C. labiata</i> used is among the best available today. (Light controllable)	2" 2 1/2"	\$ 2.00 3.50
488	<b>C. O'BRIENIANA, ALBA X C. LODDIGESI, STANLEYI, F.C.C.</b>		
	A small, heavy-textured white flower may be expected. These small flowers are winning many new friends. Keeping qualities are outstanding. Plants are bifoliate. Season, winter.	2 1/2"	4.00
491	<b>LC. KISMET, ROTUNDA X LC. H. G. ALEXANDER, F.C.C.</b>		
	Two superlative parents have been used to make this cross. Both are outstanding for color as well as form. Plants are slow in growth, but unquestionably, they will produce many show flowers. Season, early winter.	2"	2.50
523	<b>C. ENID, METEOR X C. OLD FORESTER</b>		
	<i>C. Enid</i> , Meteor is a fine, dark form of <i>C. Enid</i> . ( <i>C. gigas</i> var. Meteor was used to make this parent.) <i>C. Old Forester</i> is a fine flower of heavy substance. Both parents bloom more than once a year. Season, late fall, again in winter.	2"	1.75
528	<b>BLC. MENDABILIS, ROTUNDA X LC. ALTEN</b>		
	Both parents are winter flowering hybrids of fine quality. Offspring should be dark and have good substance.	2"	1.75
540	<b>BLC. MALVERN X C. BOW BELLS</b>		
	Both parents are good growers and produce excellent flowers. Blc. Malvern is a fine yellow with rose-colored labellum, while <i>C. Bow Bells</i> is white. Some yellow flowers of outstanding shape can be expected.	2"	2.50

LC. FRANK LIND  
Var. Orchidglade,  
A.M.A.O.S., 1954

NO.	PARENTAGE AND DESCRIPTION	SIZE	PRICE
596	<b>C. BARBARA BILLINGSLEY X L. HARPOPHYLLIA</b> This hybrid should produce flowers of a fine orange-to red color, similar to Lc. G. S. Ball, only perhaps a little smaller. Stems on mature plants will be many flowered. Season, spring.	2½"	\$ 6.00
597	<b>C. BARBARA BILLINGSLEY X L. CINNABARINA</b> Flowers will be larger than in cross No. 596 and more to an orange color. Flowers should be larger than Lc. G. S. Ball and better shape. Season, spring.	2½"	6.00
598	<b>LC. ISSY (C. guttata x L. tenebrosa)</b> We know not what to expect from this unusual cross. It should be of heavy texture, unusually colored and spotted.	2½"	6.00

L. C. GEO. LEWIS  
Var. Orchidglade,  
A.M.A.O.S., 1954

599	<b>LC. APRICOSA X LC. HENRIETTE P. DANE</b> Two fine yellows. The fine Hardyana-type labellum should predominate in the offspring.	2"	2.50
604	<b>BLC. LUCY FARFAN X BLC. PEACE</b> Expect yellow flowers to bloom during mid-winter.	2"	2.50

NO.	PARENTAGE AND DESCRIPTION	SIZE	PRICE
626	(C. EMILY SCHILL X C. LADY VEITCH) X C. BOW BELLS		
	Bow Bells crosses are among the finest of the white flowers today. This cross will produce excellent flowers for spring and early summer.	2"	\$ 1.75

## SPECIAL OFFER

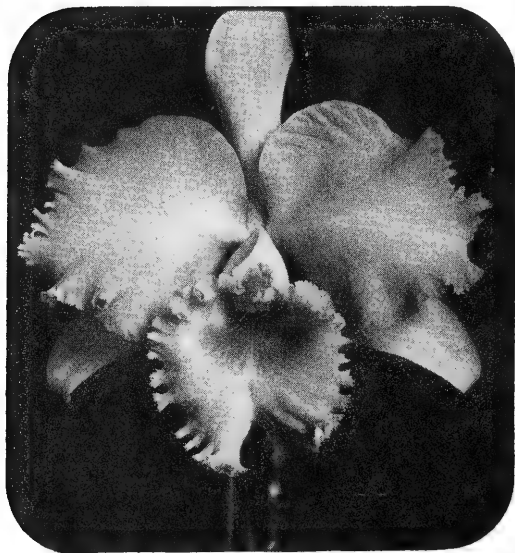

Cross No. 184 BLC. DOROTHY JONES

Cross No. 269 LC. SPRATT MANGUS

Cross No. 337 BLC. DAWN ANGELA X C.  
MENDELISSIMA

Cross No. 338 BLC. WAGNETTE

We offer you four, one of each cross,  
of these fine, unflowered seedlings  
in sheath and in 5" size for \$50.00

## EXHIBITION PLANTS

If you are interested in exhibition plants — many of which have received awards — we will be glad to send you a list of the divisions which are available

BLC. DINSMORE, F.C.C.A.O.S., 1948

## CATTLEYAS AND ALLIED GENERA

### FLOWERING SIZE PLANTS

It is difficult to enumerate all of the fine hybrids we have in our collection, but we are listing some of the selected flowering plants, which we are sure will interest our customers.

Plants differ in size, although pot sizes may be the same, and quality, of course, is also a factor; therefore, we have indicated a fair spread in price for evaluation of size and quality. These plants are all divisions of our flowering plants.

If you are interested in other hybrids, we invite your correspondence.

CHARLES P. SLOCUM SHOWN IN THE HOUSE OF FLOWERING-SIZE HYBRIDS.

#### LC. SARGON (Lc. Lustre x C. Hardyana) .....\$25-\$30

A very fine floriferous Cattleya. Habit of growth is similar to *C. gigas* in that it requires good light for best flowering. Labellum is very dark. 5" and 6" pots; season May-June.

#### C. DAVID FAIRCHILD (C. Dupreana x C. Loddigesii, violacea) .....\$25-\$30

A lovely bifoliate Cattleya; excellent producer and vigorous grower. Blooms spring, summer and early winter. Generally flowers twice a year. 5" and 6" pots.

#### LC. JAY MARKELL (Lc. Cynthia, F.C.C.R.H.S. x C. May Markell) .....\$25-\$40

A fine hybrid; white sepals and petals, dark labellum. One of the best of the whites with colored lips. Season, winter. 5½" and 6½" pots.

LC. JAY MARKELL var. Sam Sharpe, A.M.A.O.S. 1953

**C. OLD FORESTER (C. Charybdis x C. Enid) .....\$25-\$40**

A heavy-textured flower of good form and heavy substance. Flowers are large and vary from light lavender to medium-dark mauve. One of the lovely new modern hybrids. Prefers strong light for best flowering. 5½" and 6" pots.

**LC. IMPERIAL SUGAR (Lc. Hilary, F.C.C.R.H.S. x C. Mt. Royal) .....\$25-\$35**

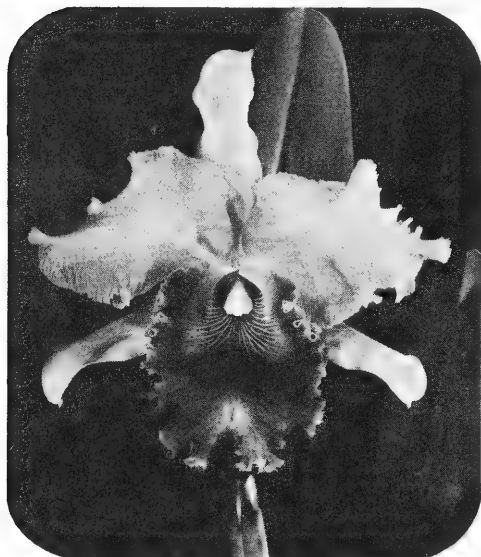

Very floriferous and a good grower. Medium-dark lavender flowers for winter to spring blooms. 5½" and 6" pots.

**LC. MARIE WEBB (C. Nutley, alba x Lc. Mab) .....\$20-\$35**

A large, fall-flowering white with colored labellum; beautiful gold-veined throat with dark markings on the tip of the labellum. 5½" and 6½" pots.

**BC. MARTHE GRATIOT X LC. PENSHURST .....\$25-\$30**

Large, cream-to chartreuse-colored Brasso-type flowers. Flowers have heavy substance and produce 2 to 3 flowers per lead. Very vigorous grower. Season, fall and winter. Large plants.

**BLC. MARION RYERSON**

(Lc. Linnaeus T. Savage  
x Bc. Hartland) .....\$25-\$50

One of the modern hybrids of Bc. Hartland which is proving to be one of the fine new parents. Flowers are dark and of heavy substance. In our climate, we flower most of these plants twice a year. Season, fall and winter.

BLC. MARION RYERSON var. Homestead

**C. NELL MONTGOMERY (C. Gaskelliana, alba x C. Ben Nevis) .....\$20**

A fine winter producer; plant "breaks" very freely, so fine specimen plants are possible in small pots. Flowers are white with yellow throats. 5" and 5½" pots.

**C. ENID VAR. ALBA (C. Mossiae, Reineckiana x C. Gigas, F.M.B.) .....\$20-\$30**

Exceptionally floriferous. Beautiful large orchids with white sepals and petals and mottled purple labellums. A "must" for any collection. Excellent grower. Season, winter. 5" and 6" pots.

**C. MARIAN FAIRCHILD (C. Eleanore x C. Loddigesii, violacea) .....\$25**

A fine bifoliate Cattleya. Flowers, borne on heavy stems, have beautiful dark label-lums. We have had as many as 14 flowers to the stem. We are offering a few divisions of this hybrid. (This was pictured on the June '53 issue of the A.O.S. Bulletin.) Season, spring, summer, fall. 5" and 5 1/2" pots.

C. MARIAN FAIRCHILD

**BE SURE TO LOOK OVER**

**ALL the pages of our orchid catalog!**

We grow so many fine plants of so many different genera that we could not possibly list them all. We invite your correspondence when you have something particular in mind, for we feel sure that we can help you with your needs and on any growing problems you may have.

**OUR COLLECTION INCLUDES:**

**Angraecums  
Brassavolas  
Cattleyas  
Cynoches  
Diacrums**

**Cypripediums  
Dendrobiums  
Epidendrums  
Oncidium  
Peristerias  
Laelias**

**Phaius  
Phalaenopsids  
Rodriguezias  
Vandas  
Vanillas**

# CYPRIPEDIUMS

The Cypripediums ("Lady Slipper Orchids") are easy to grow. Their magnificent flowers of brown, rose, green and red colors will last for several months in perfection.

Cypripediums offered here prefer a temperature of 60° F. or more. They do not like strong light and will do better if given a shaded location with 800 - 1200 ft. candle light. They can be grown well in conjunction with Phalaenopsids.

Cypripediums like plenty of humidity and are benefited by light syringings of water overhead. Applications of bonemeal and lime are advantageous. Plants may be divided and repotted after they flower.

**CYP. ASHBURTONIAE VAR. SUPERBA** (Cyp. *barbatum* x Cyp. *insigne*),  
flowering size ..... \$15.00

A brown Cypripedium; flowers are borne on long stems, a nice plant to flower in fall.

**CYP. BINGLEYENSE** (Low's strain) (Cyp. *Charlesworthii* x Cyp. *Harrisianum*), flowering size ..... \$15.00

A dark red type, flowering during early winter. Good for the Christmas Season.

**CYP. HARRISIANUM** (Cyp. *barbatum* x Cyp. *villosum*),  
flowering size ..... \$10.00

Brown colored Cypripedium, flowering during winter.

**CYP. INSIGNE VAR. SANDERI** Species *Annam* ..... \$7.50

Honey-yellow in color. Dorsal-sepal white margined with a few minute brown spots at the base. 4" pot.

**CYP. MAUDIAE VAR. MAGNIFICUM** (Cyp. *callosum*, *Sanderæ* x Cyp. *Lawrenceanum*, *Hyeatum*), flowering size ..... \$15.00

This is perhaps one of the favorites in the entire group of Cypripediums. A beautiful shade of light green. The dorsal sepal is white with light green lines. Flowers during various seasons of the year.

**CYP. MOREAUANUM** (Cyp. *callosum* x Cyp. *superciliare*),  
flowering size ..... \$15.00

A good-size flower of beautiful coloration. Dorsal sepal is white with green veinations and a suffusion of pink to lavender in the ventral sepals. Dark spots on ventral sepals.

**CYP. NEREID (Cyp. Alma Gavaert x Cyp. callosum),**  
 flowering size ..... **\$15.00**

Another fine green Cypripedium, flowering during the winter season. A good green for St. Patrick's Day flowering.

**CYP. ST. ALBAN (Cyp. Antigone x Cyp. Harrisianum),**  
 flowering size ..... **\$7.50 - \$10.00**

A nice, dark red Cypripedium to flower during late winter.

**CYP. ST. HILDA (Cyp. Boxallii x Cyp. Curtisii),**  
 flowering size ..... **\$10.00**

A pink Cypripedium to flower during the winter.

*Orchidglade*

## COLLECTION OFFER

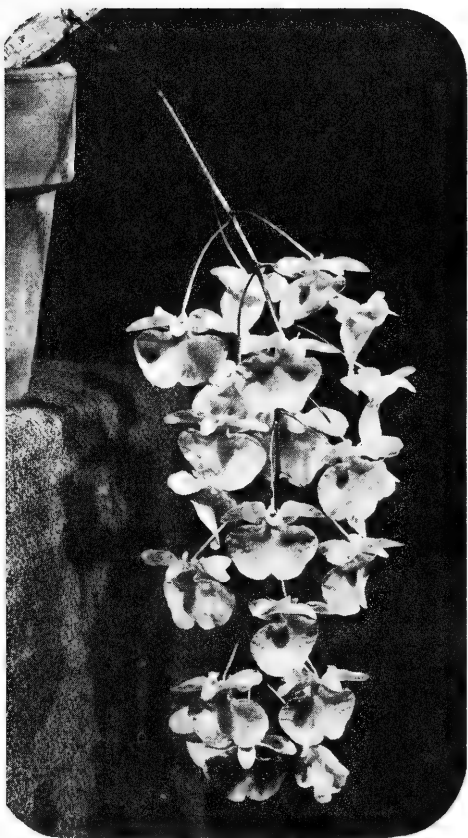

Cyp. Harrisianum  
 Cyp. St. Alban  
 Cyp. bingleyense, Low's var.  
 Cyp. T. B. Haywood  
 Cyp. Morganiae

One each of these five,  
 flowering size Cypripediums for \$35

## DENDROBIUMS

This genus contains some of the finest of the spray orchids. They are of easy culture, although one must be aware of the particular requirements of each species in order to be successful in flowering them.

*Dendrobium phalaenopsis* and all of its varieties should be grown in the Cattleya house and given as much sun as possible without burning the foliage. Give the plants plenty of water when they are growing. When not in growth, withhold some of the water and give only enough to keep the plants from shriveling. Weak applications of liquid fertilizer are advantageous when the plants are in growth.

### D. AGGREGATUM VAR. MAJUS

The bright yellow flowers of this little *Dendrobium* are most welcome in any greenhouse during the spring months. It is a small plant — pseudobulbs are 3 - 5" long and the leaves are about the same size. The profuseness of blooms dwarfs the plants when they are in flower.

3"	\$ 7.50
4"	10.00

### D. JACQUELINE THOMAS (D. Gouldi, Tulagi x D. phal. Mauna Kea)

This is a most interesting cross, as it is made with the all-white form of *D. phal. Mauna Kea* as well as the pink-labellum type. *D. Gouldi, Tulagi* was collected from Guadal Canal and is one of the finest types in existence. We flowered these hybrids and they have vivid lavender flowers of medium size. Free flowering, as each lead will make one or more long flower spikes after it has completed its growth.

4"	7.50
----	------

D. AGGREGATUM

### D. PHALAENOPSIS VAR. DELICATA

15.00

An evergreen type of *Dendrobium*. Flowers are produced on sprays from the terminal end of the long canes. Background white with lavender to purple suffusion on sepals and petals. Season, Sept.-Jan.

Flowering size.

DENDROBIUM PHALAENOPSIS

**D. PHALAENOPSIS VAR. DELIGHTFUL**

Flowers very light; background white with less intense coloring than the variety "delicata". Sept.-Jan. Flowering size.

**\$15.00****D. PHALAENOPSIS VAR. SCHROEDERIANUM****(Dixon's variety)**

The finest variety of colored D. phalaenopsis we have ever seen. Extremely dark flowers; in some cases the sepals are tipped with white, making a beautiful contrast. Canes grow to 8 feet in height and produce sprays of over 20 flowers, lasting for weeks. Our stud plant has produced as many as 10 sprays of flowers in a season. An excellent plant for use as decoration or cut flowers. Sept.-Jan.

**3" 7.50****5" 15.00****D. PHALAENOPSIS VAR. WHITE FOAM**

We are offering two hybrids of this white-flowering Dendrobium. Cross No. 411 is an all-white form, while Cross No. 412 is an all-white form with a labellum of pastel pink. Fall flowering.

**3" - 3½" 15.00**

## DENDROBIUM PHALAENOPSIS SPECIAL

Dendrobium Phalaenopsis, Delicata (light)

Dendrobium Phalaenopsis, Dixon's var. (dark)

Dendrobium Phalaenopsis, White Foam (white)

We are offering one of each of these flowering size plants, as described above, for

**\$35**

## Free Literature ON DENDROBIUM CULTURE

"Dendrobium Phalaenopsis", by Robert M. Scully.

Published in the A.O.S. Bulletin, Vol. 21,  
No. 11, 1952. Write Jones and Scully, Inc.  
for reprints.

## ONCIDIUMS

### ONC. AMPLIATUM VAR. MAJUS

Many-flowered arching, branched scapes from 2-4 feet long. Canary-yellow "Dancing Girls" 1 1/2" in diameter. Sepals blotched with red-brown. One of the finest of the Oncidiums. Flowering sizes.

**\$10 - \$12.50 - \$15**

### ONC. KRAMERIANUM

Flowers look like large butterflies; yellow with reddish-brown markings. Will continue to flower from same spike for several years. A "must" for every collection. Flowering size.

**\$7.50 - \$10**

### ONC. LANCEANUM (From Seed)

One of the finest species of the genera. Leaves large, light green peppered with dark dots. Flowers chartreuse spotted with chocolate-brown. Extremely heavy texture and will last for a month. Excellent as a decorative plant and for cut flowers.

**2 1/2" \$ 2.50**

**3" 3.50**

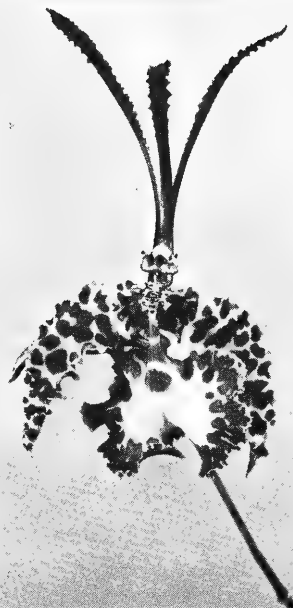

**3 1/2" 5.00**

**5" 15 - 20**

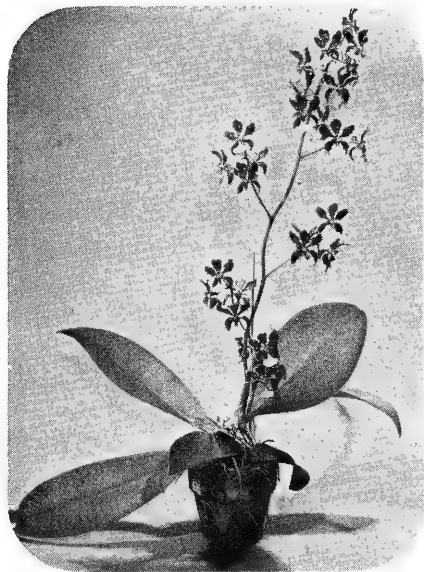

### ONC. LURIDUM (Cuban species)

As many as 50-100 flowers of 1" diameter borne on long spikes in yellow-to honey-brown color. Season, spring. Flowering size.

**\$ 7.50**

ONCIDIUM KRAMERIANUM

ONCIDIUM  
LANCEANUM

**ONC. SPHACELATUM**

Small, yellow flowers on long racemes; one plant will produce several hundred flowers. Easy culture and ideal to grow outdoors in warm climates. Always in flower for Mother's Day. Flowering size.

**\$7.50****ONC. SPLENDIDUM**

This Oncidium produces the "Dancing Girls". Lovely yellow flowers of good size. Blooms February and March.

**3" \$5.00**

## PHALAENOPSIDS

SHOWER OF PHALAENOPSIDS  
AT ORCHIDGLADE,  
FEBRUARY, 1953

We are not listing any Phalaenopsids crosses in our catalog this year as sales during the past two years have exceeded our output. Consequently, we have greatly reduced our stock unintentionally.

If you are interested in plants of this genera, please write us as we will have a limited stock to offer. Next year, we hope to offer many new crosses again.

## VANDAS

No orchid grower can afford to overlook this fine group of orchids. They are fast becoming one of the leading types of spray orchids. The flowers are of good size, generally up to 6" in diameter and the flat-type flower lends itself to all types of uses — corsage, cut flowers for arrangements, or display on the plant.

We flower many of these types as many as six times a year. From experience, we find that the growers in areas where sunshine is a limiting factor, require a good deal of time to grow small plants to the flowering size.

Therefore, this year, we are offering for sale only one size plant, except where noted, which will bloom in about a year's time.

Vandas are generally potted in larger containers than Cattleyas or other genera of similar size, so we recommend that the plants be shipped to you bare root for you to pot in suitable containers on arrival. We recommend charcoal or some inert rock as a potting media. If you want us to ship in pots, please advise.

NELLY DIJKMAN ADMIRING SOME OF OUR MODERN VANDA HYBRIDS

NO.	PARENTAGE AND DESCRIPTION	PRICE
275	<b>V. SHERLYN WONG</b> (V. tricolor, Broadview x V. Mem. T. Iwasaki)  A fragrant, free flowering Vanda. Flowers are a definite improvement in size as well as in color over both parents and have heavy texture. Color, rich butter-yellow with brown markings.	\$10.00
375	<b>V. FLAMMEROLLE X V. ROTHSCHILDIANA</b>  Flowers will be blue, quite large and round in shape.	\$10.00
378 & 506	<b>V. PROFUSION</b> (V. suavis x V. Rothschildiana)  Beautiful long spikes with flowers in every color of the rainbow.	\$10.00

NO.	PARENTAGE AND DESCRIPTION	PRICE
427	<b>V. HONOLI (V. Herziana x V. Sanderiana)</b> Plants bloom at an early age and produce several spikes a year. Flowers come in every imaginable color and fascinating combination of colors.	\$10.00
429	<b>V. FLAMMEROLE X V. SANDERIANA</b> Flat flowers of fine form in pink to salmon shades are expected of this hybrid.	10.00
484	<b>V. FRANKENSTEINIANA (V. Herziana x V. coerulea)</b> A free-flowering hybrid with blue to grey-blue flowers of the Herziana type; very desirable.	10.00
493	<b>V. LUZONICA</b> White, heavy flower with flushed magenta-purple markings and purple lip. Species from Luzon, Philippines.	10.00
496	<b>V. BOSCHI X V. DEAREI</b> Probably cream-colored flowers with purple to magenta markings.	10.00
501	<b>V. MANILA (V. Luzonica x V. Sanderiana)</b> A free-flowering, pink hybrid of excellent quality.	10.00
505	<b>V. HERZIANA X REN. STORIEI</b> Long flower spikes with probably rose to deep red blooms. Free flowering.	10.00
547	<b>V. ERNEST FUJINAGA (V. Caroline Robinson x V. Sanderiana)</b> Round flowers of heavy texture in a rainbow of colors. Free flowering.	10.00

**V. SANDERIANA, LLEWELLYN X SELF**

We expect an extremely fine offspring. The plants we flowered had exceptionally good shape and texture. Flowering size

**\$ 50.00**

**V. MEVR. L. VELTHUIS (V. Sanderiana x V. Agnes Joachim)**

One of the finest semi-teretes. Large, flat, pastel-pink flowers with dark red lip. Flowering size

**\$ 15.00**

VANDA SANDERIANA

## SPECIAL VANDA OFFER

**V. CHIMEY WALKER**

**V. DENNISONIANA VAR. HEBRAICA  
X V. SANDERIANA**

**V. HONOLI**

We are offering four, one of each, large, strong plants to flower in 6 - 12 months time for.....**\$35**

## MISCELLANEOUS

### **BRASSAVOLA DIGBYANA Honduras**

The most outstanding species of the Brassos and the most used in the modern Brasso hybrids. Flowers are green to white-green and have a large fringed labelum. Flowering in Florida, March and April.

Flowering size.

**\$12.50**

### **BRASSAVOLA NODOSA ("Lady of the Night") Central America**

A pure white, small, Brasso-type flower, wonderfully fragrant at night, producing flowers in abundance and blooming several times a year. Flowering size.

**5.00**

**BRASSAVOLA NODOSA**

## CATTLEYA SPECIES

Following we are offering 8 Cattleya species, desirable for their exact flowering season and a "best buy" for anyone who wants to start growing orchids.

### **C. GASKELLIANA Venezuela**

Medium-sized flowers in the lighter lavender tints, blooming in the summer.

**\$ 5.00**

### **C. GIGAS Colombia**

Good-sized flowers in the lighter lavender tints, blooming early summer.

**5.00**

**C. LABIATA Brazil**

Good-sized flowers mostly in the darker tints of lavender; light controllable; fall blooming. **\$5.00-\$10.00**

**C. MOSSIAE Venezuela**

Spring bloomers—nearly each year blooming for the Easter Holidays. **\$ 5.00**

**C. PERCIVALIANA Venezuela**

Medium, light lavender flowers with a vivid dark-colored labellum, blooming around Christmas and New Year's. **\$ 5.00**

**C. SKINNERI Central America**

Clusters of mauve flowers, 3-4" in diameter, sepals and petals nearly equal. Easy culture, prefers an abundance of sunlight. Feb.-March. **\$ 5.00**

**C. TRIANAEI Colombia**

Christmas and New Year bloomer. Light lavender flowers. **\$ 5.00**

**C. WARNERI Brazil**

One of the darkest of all of the species; late summer. **\$ 5.00**

**C. BOWRINGIANA X. EPI. RADIATUM**

We expect something very unusual, especially in flower color. Variable flowering season. **2 1/2" \$ 3.50**

**CYCNOCHES CHLOROCHILON ("Swan Orchid")**

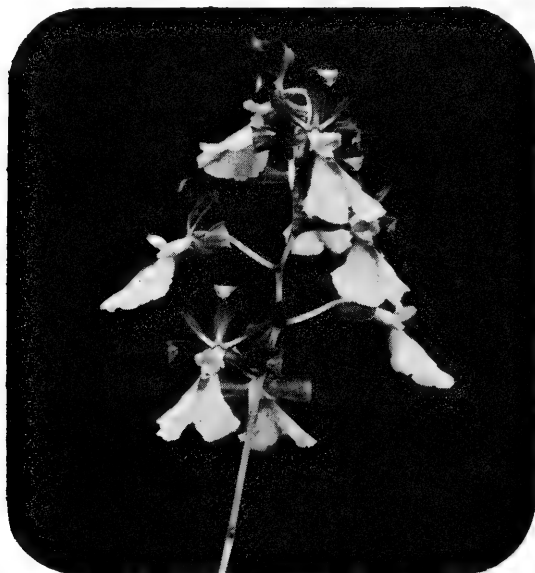

A beautiful species from Panama, having fine flowers for corsages and displays. Produces large leaves during summer, then in late fall flowers are made on the heavy pseudobulbs—large plants producing as many as 15-20 blooms. Flowers are of a heavy, waxy nature, chartreuse in color and about 5" in diameter. \$5-\$6-\$7.50, large specimen priced accordingly.

**DIACRUM BICORNUTUM West Indies**

A most interesting plant for a collection. Flowers start opening during February and continue for several months. White, star-like flowers spotted with purple are produced on long spikes. We recommend this plant for those who like fragrance in the greenhouse. The perfume of these blossoms is like that of orange blossoms and particularly fragrant in the morning. Flowering size. **\$10.00**

**EPIDENDRUM ATROPURPUREUM Panama**

Rare Flowers are larger than the type. Sepals and petals brown with lighter borders, lip reddish-mauve. Season April

**\$10.00****EPIDENDRUM ATROPURPUREUM****LAELIA PURPURATA Brazil**

A spring-blooming Laelia, producing 5 - 7 lavender blooms on the stem. Flowers have a dark labellum.

**\$10.00****PERISTERIA ELATA (The "Holy Ghost" Orchid) Panama**

This is a large-growing terrestrial orchid preferring a semi-shaded location. In the fall it produces white, waxy flowers, the parts of which portray an image of the Holy Ghost — hence its common name. Application of liquid fertilizers are advantageous during its growing season.

**\$10-\$15****RODRIGUEZIA SECUNDA Trinidad**

A small plant that adapts itself well to hanging as the scapes are somewhat arching. Flowers during late spring. A most interesting rose-pink color. Easy culture; prefers Cattleya house temperature and light.

**3" \$ 7.50 4" \$ 10.00****VANILLA PLANIFOLIA Central America**

This is the plant from which the commercial Vanilla is obtained. It is a vining type and can be trained to climb along the wall or vent shaft. Grown on treefern in

**5" pots, \$3.00, 15-18" cuttings \$ 2.50**

THE  
MODERN  
*POTTING STICK*

Here is the potting stick  
you have been looking for;  
made of aluminum with a  
rubber handle, 12 ½" long.

Prepaid anywhere in the  
U. S. A., only

**\$3.25**

## *Literature*

**PHILIPPINE ORCHIDS**, by Reg S. Davis and Mona Lisa Steiner .....**\$5.00**

A detailed treatment of some 100 native  
species.

**HOME ORCHID GROWING**, by Rebecca Tyson Northen .....**\$6.50**

An up-to-date book on the subject of orchid  
culture from seed to flower.

**YOU CAN GROW ORCHIDS**, by Mary Noble .....**\$1.98**

A good introduction to orchid growing for the  
hobbyist.

## ORNAMENTAL COMPANIONS

### Anthurium Andreanum Hybrids

Flowering Anthuriums are very interesting and a beautiful addition to any orchid house. Each flower lasts for several months and as a new leaf opens a new flower develops. Well-grown plants should always be in flower. This plant prefers diffused light, plenty of moisture, good drainage. Colors, red, salmon or pink.

6-7" pots \$10, \$12.50, \$15

ANTHURIUM ANDREANUM

### BROMELIADS

Increasingly becoming a favorite group of plants as an addition to the greenhouse or as a plant for indoor decoration. Closely allied to the pineapples, they show heavy foliage in a wide variety of colors and will grow and flower in diffused light.

#### AECHMEA FASCIATA

Light green plants banded with white tomentose stripes, making rosy-pink flower spikes.

#### AECHMEA ORLANDIANA

5" \$4.00

Shiny, light green foliage with red-brown stripes. Brilliant orange flower spikes.

#### NEOREGELIA ZONATUS

4" \$2.50

Dark green foliage with brown-red stripes.

#### VRIESIA CARINATA HYBRID MARIE 5" \$7.50

Light green foliage. Flat feather-like flowers are strikingly marked with orange-red and yellow, lasting for several months.

AECHMEA ORLANDIANA

# *Literature*

**BROMELIADS**, by Mulford B. Foster .....\$1.50

Cultural handbook on Bromeliads.

**PLANTS INDOORS**, by Mary Noble and J. L. Merkel .....\$6.95

A guide to their selection, care, and use in decoration. Well illustrated, also in color.

## **MORE THAN MEETS THE EYE**

The experienced orchid grower knows that one cannot judge the potential quality of an orchid plant by its appearance. The physical appearance of the plant indicates only whether the plant is in good condition, but does not reveal the many hours of thought and the years of care which have been involved to produce quality flowers.

It is necessary, therefore, that you place full faith in the grower from whom you purchase your plants. That is why year after year, our customers call on us again and again to supply their needs. All of our experience is at your service and we hope you will join the ranks of our many satisfied customers.

## **FOLIAGE PLANTS**

We are growers of Tropical Foliage plants as well as Orchids.

If you are interested in Tropical Foliage plants for indoor culture, we invite your correspondence.

**ORCHID SUPPLIES**

**POTS**

We are agents in the Miami area for orchid pots and offer our customers a complete stock. Pots must be picked up at our nursery except in the case of loads or part loads which we can arrange to have delivered direct from the pottery.

**MISCELLANEOUS ITEMS**

As an accommodation to our customers, we have the following items available: (Prices F.O.B. Miami)

<b>TUBES AND CAPS (25 of each)</b>	<b>\$1.25 pkg.</b>
<b>POT HANGERS</b>	<b>.25 each</b>
<b>WIRE STAKES (GALVANIZED)</b>	<b>.04 each</b>
<b>SLUG DEATH</b>	<b>1.00 box</b>

**ALSO**

**LABELS, POTTING STICKS, INSECTICIDES,  
TREE FERN POLES, OSMUNDA**

**OSMUNDA FIBER**

We are continually purchasing good quality osmunda fiber from the men who gather it in the Everglades.

We feel that quality osmunda is necessary to grow quality plants.

We will be pleased to ship to you the best grade of Florida osmunda fiber in lots of one or more bales.

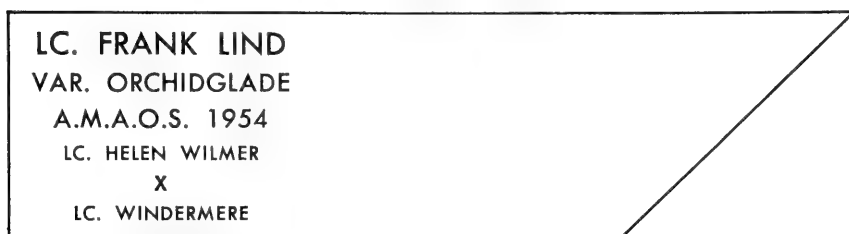

Write for current prices and state the quantity you desire.

## “PYRALIN” ORCHID LABELS

### Make Permanent Accurate Records

By using these indestructible labels to identify your orchid plants, you will increase the value of your collection immeasurably.

### LARGE SIZE

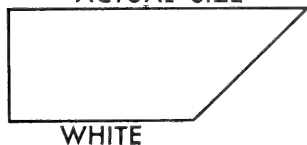

White, actual size \$1.60 per 100; \$15.00 per 1000

Weight 7 ozs. per 100

In addition to having a permanent record of the correct name of each of your orchid plants and any awards which they may receive, the reverse side of the labels offer an 'at hand' record for such pertinent information as potting data, flowering dates, source of purchase, description of blooms and so forth. This label is larger in size than others on the market, which allows ample space for such information.

### ACTUAL SIZE

### SEEDLING SIZE

## CONDITIONS OF SALE

1. Orders will be filled in rotation.
2. No substitutions will be made on any order either as to size or variety without authorization.
3. We do **NOT** make a packing charge.
4. Unless otherwise advised, shipment will be made via Railway Express, charges collect. (All orders are F.O.B., Miami.) However, we recommend air express (or air freight on large orders) for shipments destined for countries outside of the United States and for shipments to be made during the winter months when there might be danger of the plants freezing en route.
5. **Claims** for damaged shipments must be filed immediately with the carrier by the consignee. We make every effort to pack carefully, and our responsibility ends when the shipment is accepted by the carrier.
6. On the authority of your local plant quarantine station, please advise us if there are any unusual requirements pertaining to the shipment of plants into your territory or country.
7. Our firm has been properly authorized to handle shipments to Hawaii. However, the customer must forward with his order his permit number which he must obtain from the Board of Commissioners of Agriculture and Forestry, Honolulu.
8. Unless your credit has been established with us, kindly enclose check, money order, or bank draft to cover payment of your order in full.
9. **NON-WARRANTY:** We, **JONES AND SCULLY, INC.**, give no warranty, express or implied, as to the productiveness of any of the plants we sell, and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of these plants.
